Power BI

Using Sample Data

Storyline:

This chart shows which business segment brings the biggest slice of profit cake

Analysis:

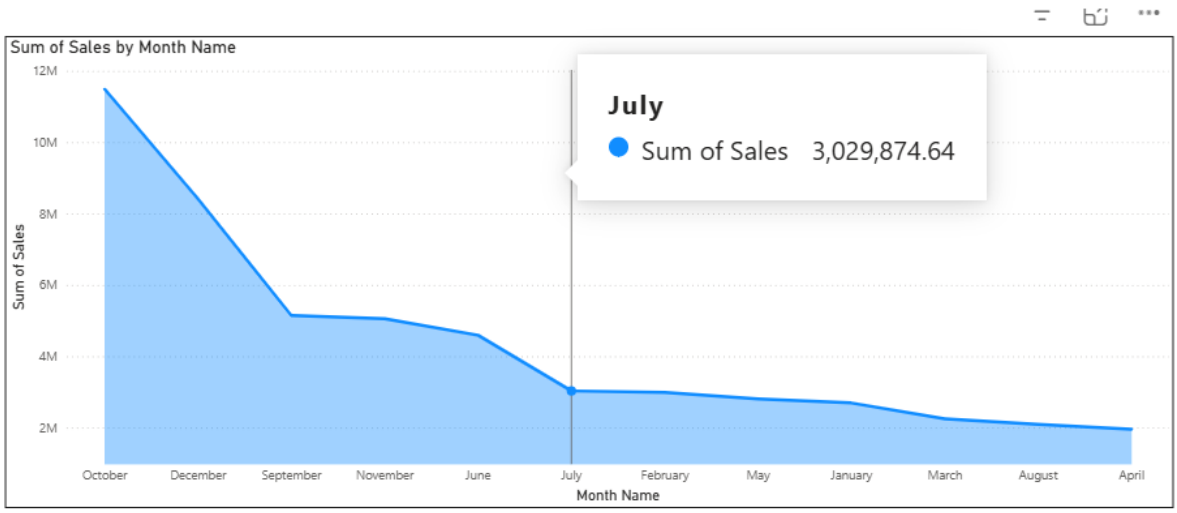

- Bigger donut slice = more profit contribution
- Smaller slice = weak performance

Key Insights:

- Government and Enterprise segments contribute the highest profit
- Channel Partners and Midmarket contribute the least

Result:

Company should focus on high-profit segments and improve weak ones.

Storyline:

This shows how business flows over time like a wave

Analysis:

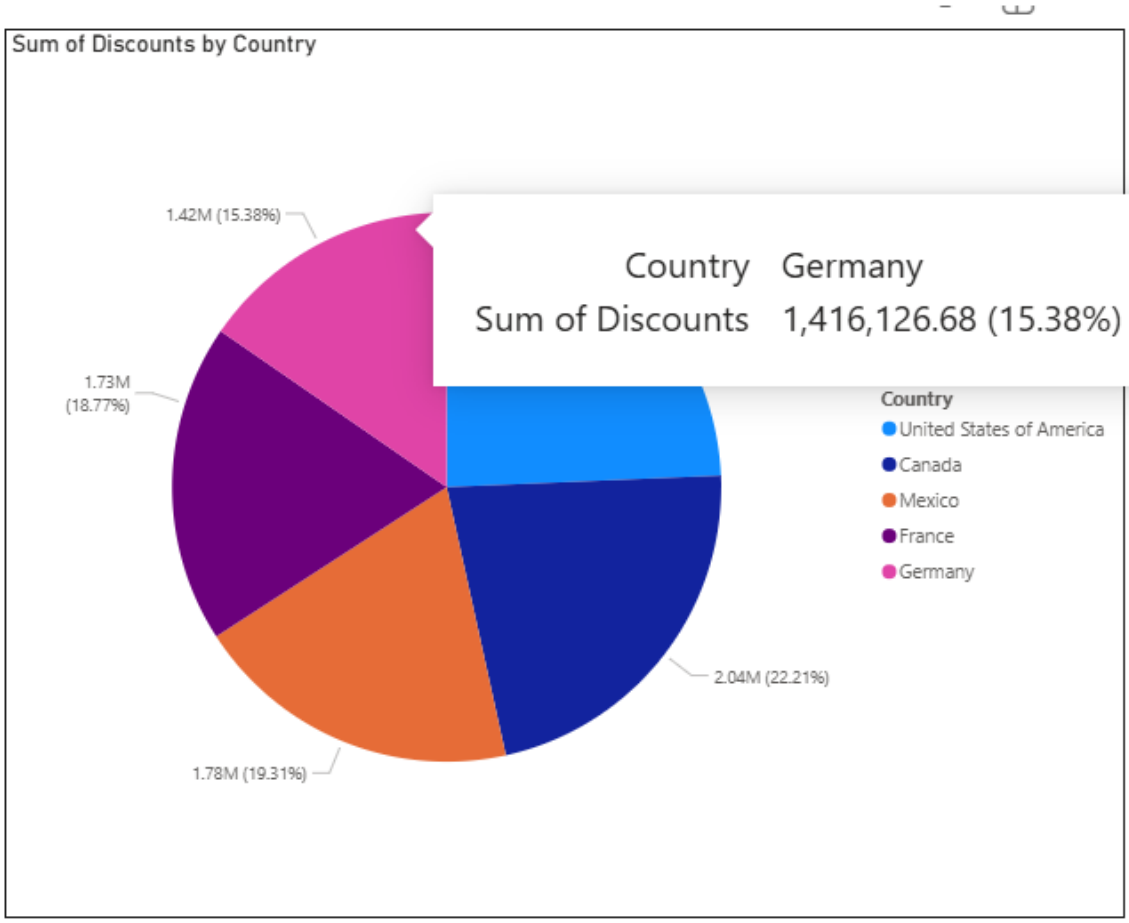

- Rising area → business growth
- Falling area → weak months

Key Insights:

- Peak months show strong customer demand
- Low months need marketing push

Result:

Plan promotions during low-sales periods

Storyline:

This shows which country gets the most discounts.

Analysis:

- Bigger slice = higher discounts

Key Insight:

- USA and Canada take a large share of discounts.
- Germany gets fewer discounts.

Result:

Control discounts in high-discount regions.
